Venado Caves Underground Experience from La Fortuna

Slip beneath the ground on a 4-hour tour through the Venado caves from La Fortuna, and follow underground trails into a series of remarkable grottoes and chambers. Gear up and follow your flashlight along an ancient seabed as you explore the caves with your guide. Get wet and get dirty on your way to fantastic rock formations and bristling stalactites and stalagmites, visit a bat colony that thrives in the cool, dark cave system, then return to the surface to enjoy a snack of tropical fruits.

Rock formations of stalactites and stalagmites are very common inside the caves, some hanging from the rocks overhead, and others surging up from the ground. A great colony of bats inhabits the caves, as well as spiders and crabs.

Departure:

7: 30 am, 1:00 pm, 1:30 pm

Includes

Bottled Water, Snacks, Professional Guide, Hotel Pickup and Drop-off
Exploration Equipment, Transport by Air-Conditioned Minivan with Wi-Fi
Towels, Go Pro Photo Package

Birdwatching

The circuit trail combines tree plantations, a gallery forest alongside one of the important rivers of the area, a regenerating forest with open grasslands and pastures, and small brooks which permit the observation of typical open area birds, in addition to aquatic and wooded area birds. Among the most common birds found here, we have: Great Kiskadees (*Pitangus Sulphuratus*), Tropical Kingbird Flycatchers (*Capsiempis Flaveola*), Montezuma Orioles (*Psarocolius Montezuma*) and Variable Seedeater (*Sporophila Americana*). The Laughing Falcon (*Herpetotheres Cachinnans*) is a good-sized hawk whose presence is an indicator of a healthy environment, this because their diet depends on snakes, which in turn feed on frogs, rodents, lizards, birds and other snakes.

Departure:

Experience Traditional Costa Rican Tour

After this warm welcome, we will learn to milk the cows. Everyone will have the opportunity to give it a try, especially the little ones. Next, we will taste-test home-made liquor, chocolate, and fresh milk while we observe the "alambique", the artisanal liquor distillation process. Afterwards, we will participate in the sugar cane extraction to obtain a delicious juice and then try it alone, with spearmint, liquor, or other of the farm's organic products. We will visit a small archaeological ranch where we can observe some ancient indigenous pieces and put them to work in the artisanal process of making chocolate from the cocoa fruit to the delicious chocolate we love. Finally, you can walk through and admire the orchid and medicinal plant gardens. After the journey, we will share with the other visitors while we enjoy farm-fresh favorites like coffee, cheese, tortillas, hash, and others.

Hanging Bridges

The Hanging Bridges Forest Reserve covers an area of 243 hectares (600 acres) of protected forest. This adventure is ideal for those who want to take in the characteristics and beauty of the tropical rainforest on foot. The 3.1 km (2 mi.) circuit trail will cross 15 impressive bridges, some suspended over the forest canopy and others, which are stationary. The bridges have different lengths and altitudes and were designed to offer different perspectives from which to observe the flora and fauna, as you pass through several levels of the forest. From the bridges, you will have views of the treetops making it easier to locate animals and birds.

The topography of the terrain is relatively simple with some short slopes, suitable for all ages and ability levels. Some of the animals that we may observe in this type of forest are 3 different species of monkeys, multiple species of birds, snakes, peccaries, and frogs, among others.

Sloth Watching Tour Day or Night Experience Costa Rica

One of the most beloved animals of our country is the popular sloth. This animal captivates us with its tenderness and peculiar slow behavior. We cannot deny that we have envied their pace at sometime in our own lives.

The La Fortuna area is a unique place when it comes to sloths. Our climate, protection, availability of food, and the essential absence of predators make this privileged property an amazing natural oasis. Our specialized guides are experts in finding them, so we can guarantee their observation. We must remember that the sloth is a solitary animal and that most of its time it is sleeping or resting in the treetops. During The tour, you can observe two types of sloths: Two-toed sloth and the three-toed sloth. If we are lucky we will be able to observe a mother with her baby; a thrilling experience.
